

On Monday, May 24, AIA Eastern Oklahoma hosts our annual golf tournament and dinner at the Meadowbrook Country Club. This event is an outstanding opportunity to increase your company's visibility to the architectural community and to promote camaraderie among architects, clients, manufacturers, suppliers, contractors, and consultants.

Sponsorship has always been a tremendous way to promote your business and express support for the design and construction industry, but today's economic environment demands that every expense be considered wisely. As a result, we are extremely appreciative to each individual and company participating as a sponsor and/or player at this year's tournament. We encourage our members to thank these sponsors and more importantly, post this flyer at your desk or on your bulletin board and give them first consideration when making your next business decision or purchase!
