CALL FOR ENTRIES

The designers of Eastern Oklahoma's built environment are among its most talented, yet lesser known artists. **Beyond Bricks 2010** is an opportunity for Eastern Oklahoma architects, interns, landscape architects, interior designers, and architecture students to display a diverse variety of artistic methods, processes, and means of expression used by an artist to produce a work of art. This biennial event has featured photography, painting, sculpture, woodturning, jewelry and furniture created by artists representing the multi-design disciplines.

Beyond Bricks 2010 is a juried art exhibit that will be on display at Living Arts of Tulsa - opening to the public on Tuesday, June 29 through Thursday, July 8, 2010. On Thursday, July 8, 2010 an artist's reception will coincide with AIA Eastern Oklahoma's 2nd Thursday.
